

Silent, compact and easy to manoeuvre ensuring you more productivity

Floors are cleaned and dried in one single pass, and the compact design permits cleaning right to the edge, even in congested areas. And all the battery driven versions are now equipped with Ecoflex system, which keeps the consumption control, but it also guarantees the possibility to boost temporarily water and detergent for more aggressive cleaning tasks. That is why this serie makes effective floor cleaning a fast, quiet and inexpensive task.

- Low noise level for daytime cleaning
- One-touch dashboard operation
- Ecoflex option, detergent mixing system
- No-tools for changing squeegee blades
- Easy access to recovery tank for cleaning and maintenance
- Traction version with large wheels for easy handling
- Waterproof electrical control box

The walk-behind series has retained the best of the former generation, but offers more comfort and productivity in an improved design.
